IN THE LOCAL FIELD.

MASSACHUSETTS NOTES.

Gambling in Tobacco Futures,

A big gamble in the 1862 tobacco crop to be grown in the Connecticut valley has already set in. Reports to the New England Homestead show that in several of the leading towns of Massachusetts and Connecticut the planters have already contracted to sell this year's crop at from 25 to 30 cents a pound. These are very high prices and the fact that they are offered before the plants are set out in the field presages much excitement in the tobacco market later on. As a matter of fact such contracts are all in favor of the buyer, as in most cases they are so mais that the buyer can back out if either quality or price are against him, while if these be favorable, he is so situated as to insist on the delivery of the goods. The 1801 crop has been cleaned up as never before. The latest sale was five cases of the choicest Havana seed wrappers grown by Alvan Martien of Suffield, Com., at the enormous price of 60 cents a pound, the highest price paid to the grower since the great gambe just before the panic of 1875. Reports to the Homestead in dicate a large increase in tobacco acreage throughout the Connecticut and Housatonic valleys this year.

In the suit of Albert E. Foth against the street railway company of Springfield the jury rendered a verdict of \$11.500 for the plaintiff. Foth fell while alighting from an electric car August 12, 1891, and his left foot was crushed so that if had to be amputated. In the case of F. L. Gunn and wife against the same company Mr. Gunn was awarded \$1000 and Mrs. Gunn \$200.

awarded \$1000 and ars. Guin \$220.

Hyman Pearlman, an attache of the Pawnee Bill Wild West show, was killed by the cars Wednesday of last week at Turners Falts. Pearlman was endeavoring to reach the cabonee from the forward car when he fell between the cars, and the wheels passed over one leg near the body. He lived for several hours after the accident.

At the special town meeting at Turners Falls Saturday these appropriations were made: To extend High street to Ferry road, \$200 to put in sewers at Millers Falls, \$2100 to pay one-half the cost of building an iron bridge across Millers river at Millers Falls, in place of the present wooden one, \$2500. Erving paying the other half; to fund repairs on the upper suspension bridge and minor appropriations, \$500.

VICINITY GLEANINGS.

There is a good prospect that the granite quarries at West Windsor will soon be opened as a trade is about to be closed with other companies with \$400,000 capital. If the trade is made it is proposed to open up five quarries immediately.

Three houses were burglarized one night this week at Chester. Dr. Havens of Chester Depot lost a valuable gold watch and chain, doubly prized because the gift of a friend. Mr. Peabody of South street lost a watch and several dollars in money, Mr. Booth a small sum of money and Mrs. Booth a ring which was lying on her bureau. It is thought that other bouses were visited on succeeding nights, but without success. It may be remembered that four years ago next August Mr. and Mrs. Geo. C. Allen of Chester Depot were suddenly awakened by the flash of a dark lantern in their faces and two masked men standing by their bedside with three revolvers pointed at them. For an hour and a half they were kept this guarded, while other masked men succeeded in robbing them of \$1500.

Mr. Editor:-Under the above heading your Putney correspondent of last week invites cor-

able errors in his report.

"Three agents of experts were putting up Hall." Are any parties who accept the agency of a machine as different from the old liners as a locomotive is from a stage coach, entitled to be termed experts, by virtue of such agency? If so, we admit the charge.

"When a nut was turned a little too tight, it would not move at all." Well, there are very few mowing machines in which some nut scrowed for tight or left too loses, will not seriously interfere with their working. Are experts, then, required to run all theser. The Hall will not trouble even a novice, either in setting up, or operating.

"It was stopped several times and readjusted." This is a mistake. On the first round a loose screw, which had been overlooked by our "experts in setting up, came out, and occasioned a delay of a few minutes. The replacing of this was the only readjusting done on the Hall during the boro, and closed by mov nomination for Mr. Titus

we will make the liberal allowance of 10 per cent as the additional draft required to cut that extra six inches. Now the cutting draft of the Hall was shown to be 25 pounds. To this add the Hall was shown to be 25 pounds. To this add the Hall was shown to be 25 pounds. To this add the Hall was shown to be 25 pounds. To this add the Hall was shown to be 25 pounds graft of 175 pounds gives 2829 pounds for a Hall of five foot cut. This added to draft out of gear (175 pounds) gives actual gross draft of five foot Hall in grass, against 280 pounds for the chain Buckeys, whose actual gross draft is thus shown to be ever 23 per cent greater than that of the five foot Hall. The first report only claimed 15 to 20 per cent more.

We are ready any day to verify these figures by actual tests, and as we advertise, we are willing to meet any other machine at any time.

REPUBLICAN

COUNTY

CONVENTION

The Business Transacted with Harmony and Despatch.

Kittredge Haskins of Brattleboro and F. P. Ball of Reliows Falls, the Sen atorial Candidates.

The Republican county convention held at Newfane on Tuesday was a model of harmony and good temper, and beat the record for the short time required for the transaction of its business A. E. Cudworth of Londonderry, the chairman of the county committee, called the assemblage to order at 11 o'clock, and Rev. F. J. Parry opened the proceedings with prayer. The call for the convention was then read by John L. Knowlton, the sec-retary. On proceeding to roll call it was found that there were lacking only four members of a full convention of 110 mem-Somerset was the only town unrep resented. One delegate was missing from Dover and two from Wardsboro. For temporary officers of the convention the committee recommended Hon, Sidney Holmes of Grafton as president, and O. L. French of Brattleboro and D. C. Dexter of Wardsboro as secretaries. Hons, E. L. Waterman and A. A. Wyman were appointed a committee to escort the president to the chair. On taking the chair Mr. Holmes thanked the convention for the honor conferred upon him, and said he thought the best speech he could make would be to ask the convention to proceed at once to business. A. B. Hewett of Putney and Homer A. Dudley of Londonderry were made vice idents. On motion of George B. Hitt of Brattleboro the temporary organization was made permanent. On motion of A. E. Cudworth the president was instructed to appoint a c mmittee of five to nominate

Estey then moved that the convention proce d to the nomination of county officers, and the motion was carried. Col. Hooker presented the name of Col. Mr. Bishop then made a short address, ecounting his connection with the Republican party since its organization, and his successful work in organizing the members of the party in Whitingham and Reads-boro, and closed by moving to make the the only readjusting done on the flatt during the trial.

Your correspondent is very nearly correct in his statement of the draft of the Buckeye, which, according to the careful noting of several parties, averaged on a level just about 220 pounds. But the Hall, over same ground and cutting same kind of grass, showed an average draft of just about 200 pounds. lawyers of the county, who would perform the duties of the office with ability and fidelity. Mr. Bolles of Rockingham seeonded the nomination and it was carried unanimously by acclamation. Mr. Robinson of Jamaica then arose to address the chair, but gave way to Dr. Holton, who nominated M. B. Bishop of Whitingham for the office of high balliff. Mr. Robinson stated that it had been his purpose to renominate Mr. Knowiton, the present in-cumbent, but he cheerfully yielded to the suggestion made and seconded the nomination of Mr. Bishop. Mr. Bishop was then

nominated unanimously by acclamation. H. D. Ryder nominated John O. Spring of Rockingham for county commissioner, explaining that Mr. Farnsworth, the present incumbent, was a man of advanced years who does not care to hold the office W. G. Stevens of Grafton nominated A. A. Wyman, vouching for him as a temperance man and one whom all would like to honor in that place. Mr. Ryder then withdrew Mr. Spring's name, and Mr. Wyman was nominated unani-mously by acclamation. The ticket was completed by the renomination of the present probate judges, Hons. Royali Tyler and Lavant M. Reed of Rockingham, Col.

Mr. Ryder, for the committee on resoluions, asked for a few minutes for consult ation, and during their absence Col. Hook-er was called upon to speak to the convention on the Australian ballot law. Col. Hooker's remarks were based principally upon the operation of the law as it has been observed in Brattleboro, where it has been used for two town and two village elections, and each trial has proved the difficulty of getting even well-informed voters to mark their ballots correctly. The board of civil authority counted every vote where the intent of the voter was unmis takable, but in every case it was necessary to throw out about 10 per cent. Some are not marked at all, others have had on-ly a single mark on the top, some have marked all the names when there were two tickets in the field, etc. Col. Hooker strongly and repeatedly urged that in every town in the county the chairman of the Republican committee hold schools for voting, in order to instruct the voters and to familiarize them with the system. Unless this is done a large proportion of the votes will inevitably be lost. It is important to the Republican party that the votes be properly cast, but it is most important of all to get the voters out. Col. Hooker would put less work and expense into can paign speeches and meetings and more into getting the voters to come to the polls.

At the conclusion of his remarks the committee on resolutions presented the following report, which was unanimously adopted:

We, the Republicans of Windham county, in convention assembled, do a lopt and affirm the datforms of the national and state Republican conventions as a declaration of the principles of the Republican party of this county. We hereby piedge ourselves to support to the ull extent of our ability the monimations of the national, state and county tickets.

The convention then adjourned. A Fraudulent Nomination.

The Difference Between the Two Can didates Sharply Outlined. From the New York Tribune.

Grover Cleveland's nomination is a fraud—or else he is. One or the other of conclusions is absolutely necessary, and either is fatal to his candidacy. If he believes as his idolators say he does, if he will execute as they promise he will, he is no more representative of the party which has presented him than is Gabriel of the legions of sin. If he does not so believe and will not so administer, if he is really a Democrat, then he is not the man who is being held up before the country as a pat-tern of political virtue. In any event, of the suggested Democratic candidates, he is the weakest. If all is true that is claimed was nominated unanimously by acclama-tion. the weakest. In the weakest for him personally, it constitutes no rea-son why he should be preferred to Benjamin Harrison. If he believes in civil service reform, so does President Harrison. and behind Harrison is a party which enacted the reform law and created and now sustains the machinery by which the law is enforced, while behind Cleveland is a party which hates and despises the reform and loses no chance to strike at it. If he believes in an honest and equal currency so does Benjamin Harrison, and behind Harrison is a party which has always been the party of sound finance, while behind Cleveland is a party which in the last three years has declared for free silver in 31 state platforms and in two congresses has voted for free silver bills with substantial unanimity. If he is honest and and resolute and patriotic, so is Benjamin Harrison, and behind Harrison is a party which respects and follows him, while behind Cleveland is a mob of demoralized factions. All that is claimed as characteristic of Cleveland is proved of Harrison, and the likeness ends at the place where the Demoralized factions. likeness ends at the place where the Democratic candidate challenges the industrial interests of the country to a fight to the finish, while the Republican candidate promises a continuance of that golden prosperity which his present administration has secured.
